The 1972-73 football season proved to be a decent one with improvement on the minds of next years athletes. The thriller of the season would undoubtedly have been the homecoming game in which our own men came from behind to down the riverdale raiders. It was a fun and enjoyable season for the players as well as their followers, and we can look for a more prosperous season next year.

Morning Has Broken

by Cat Stevens

Morning has broken
Like the first morning.
Blackbird has spoken
like the first bird.
Praise for the singing.
Praise for the morning.
Praise for them springing
fresh from the world.

Sweet the rains new fall,
Sunlight from heaven.
Like the first dew fall
on the first grass.
Praise for the sweetness
of the wet garden,
sprung in completeness
Where his feet pass

Mine is the sunlight.
Mine is the morning.
Born of the one light
Eden saw play.
Praise with elation
Praise every morning.
God's recreation
on the new day.

Freshman Class

Twenty five years ago at Naples High School

This year has been an exciting year for this Freshman Bunch. The year started out in our new high school building. We were all very proud to call ourselves high school students and also to have a building we can call our own. There were two sections of ninth graders and to distinguish them we called one 9A and 9B.

We had a very jolly group and we were always in good spirits in and out of class.

Sophomore Class

Twenty Five Years Ago at Naples High School

If you would look in our class you would see and hear a lot of things. Most of us sophomores pal around with someone in our room. And if you would listen to what these pals say to one another you would say the same thing as I do — were crazy. We sophomores are good at jokes, but we will work harder and be better sports in our junior year. We are 35 strong this year — if we get any larger we will need a bigger room.

Junior Class

The junior class of 1951
Was full of foolishness and fun
They could always mix work with play
And carry out a jolly day.
We have eighteen members in the
junior class this year.

Although the styles and methods of teaching and teachers have changed over the years the goals of education and educators have not — the children. Whether it be principal, teacher, janitor or secretary each job is only as important and effective as the person working with him. All facets of the adult school community must work together to give the child what he is seeking — KNOWLEDGE.
